 THURSDAY, MAY 6, 1897.

**Logan.**  
 Cupid seems to have been abroad with his darts and it is rumored that wedding bells will again ere long ring merrily in our midst.

Wesley Sullivan having attended one course of medical lectures at St. Louis will study medicine with Dr. Chapman at Speed till autumn.

Messrs. Wiltrout, Dougherty, and Bowman were fortunate in their last shipment. The stock arrived at Kansas City in good condition and sold upon a fair market.

A photographic gallery has been established in Logan and its proprietor, I. P. Henthorn, proposes to cater to the taste and fancies of this community and surrounding public.

The public school has closed for the vacation and food parents will exercise their wits as to the whereabouts of the average boy during his waking hours for the next four months.

E. F. Wright of Oberlin, Kansas, has been in Logan this week tuning and repairing pianos and organs. Mr. Wright enjoys an enviable reputation in his line, his work being first class in every respect.

The ladies of the M. E. church were highly successful in their lunch and ice cream social given to defray the expenses of improvements at the parsonage. The exchequer was replenished by something over \$30.

Mrs. Harriet M. Hoyt has made application for a widow's pension and accrued payment due her late husband, Don Carlos Hoyt. The preliminary papers in the case have been forwarded and an early adjustment is expected.

Bradley Webster living ten miles south in Rooks county has received notice of an increase from \$6.00 to \$12.00 per month and arrearages from 1892, amounting to over \$300. Mr. Webster belonged to Co. B. 37 Wisconsin, Vol. Inf.

A Presbyterian church with thirteen members was organized at Pleasant Ridge, Belmont township, Thursday, April 29, by Rev. Shockley of Phillipsburg. Christ Fritch and A. Sebelius have been chosen elders and Arterius Shearer and others trustees.

Improvements are noticeable. J. B. Working has remodeled his former residence which when completed will be homelike and comfortable. E. I. King is painting his handsome cottage while Henry Ferrett has built a spacious office in his residence and beautified his surroundings.

The open meeting of the Logan W. C. T. U. was well attended and the exercises interesting. The president, Mrs. Anna M. Tracy gave an excellent report of the convention at Kirwin. Mrs. C. B. Lincoln gave select reading, and the program throughout was one of more than ordinary merit.

Rev. Albert Watkins, arch deacon of the diocese of northwestern Kansas, officiated at the church of the Transfiguration Wednesday evening. The duties of ministering to the numerous parishes in his territory are arduous, his home being in railroad cars and public conveyances most of the time.

William Stunkle returned from his round trip of 250 miles last Monday having delivered his consignments in excellent order both in Concordia and Logan. Good luck attended him as it seemingly rained in every direction but his chosen route. Will is one of our most deserving citizens and is to be congratulated.

Recent showers have vastly improved the face of nature. The grass sings its lullaby, "Here I come, creeping creeping everywhere." Blooming trees, singing birds, and vernal sunshine conduce to the belief that the summer solstice is near. The earth will soon team with its products and the hardy husbandman rejoice in the anticipation of well filled store houses and barns.

Thomas W. Hill died Monday morning at 2 o'clock of diseases incident to old age. Deceased was nearly eighty-one years old. He was a member of Co. I. 48 Regt. Ill., Vol. Inf., and served in the war of the rebellion. His funeral occurred Tues-

day at 2 o'clock p. m., under the auspices of the Grand Army of the Republic. He leaves a wife and numerous descendants.

William Engert and Jack Ewart are developing excellent mechanical abilities. They have constructed by their inventive knowledge an engine correct in all its details which would be highly creditable to persons of older growth. The boiler first constructed could not generate steam to propel the boat for which it is designed with sufficient speed, and now a new porcupine boiler is being made which they expect will remedy the defects of the one which had to be abandoned. The motive power will be applied to a propeller and excursions on the Solomon will be rare aquatic sport the coming summer.

"And the twain were made one flesh." The marriage of Miss Effie W. Buffington, daughter of Mr. and Mrs. H. C. Buffington of Prairieview, to Mr. Herbert S. Baker of Logan, was solemnized at the church of the Transfiguration, Thursday evening, April 29, at 8 o'clock. Rev. Albert Watkins, arch deacon of the diocese of northwestern Kansas, officiating in accordance with the impressive service of the Episcopal church. The decorations were simple yet in good taste the altar and chancel rail being embowered with palms, geraniums, oxalis, ivy geranium, pelargonium and other floral tributes. A marriage bell of apple blossoms hung pendant from the ceiling. The entire effect was artistic and pleasing. As the bridal chorus from Mendelssohn came from the organ at which Miss Katie Hansen presided, the bridal party preceded by Dr. F. E. Richmond as usher came slowly down the aisle and stood at the chancel where the officiating clergyman in full robes was waiting to receive them. There was no best man nor maid of honor. An Easter wedding, the ring ceremony being used symbolical of an union never to be broken. The ritual of the church was soon spoken and the bride and groom pronounced husband and wife. The bride's gown was a cream tinted cashmere, while the groom was attired in the conventional black. The church was filled to its utmost capacity by a large and brilliant audience, the seating arrangements being under the direction of Mr. Emil Apel and Dr. F. E. Richmond, ushers. Immediately after the marriage ceremony a reception was given the bridal couple by the ladies of the church, of which the groom is lay reader, which was largely attended and comprised the best element in the city. The Becker Hotel was a scene of festivity and enjoyment. Refreshments elegant and dainty were served in abundance. The cuisine was fully up to the standard of that well known hostelry. While enjoyment was at its height the assembly was regaled by a tinnabulation of the bells, bells, bells. These with other loud sounding instruments contributed to a medley suggestive and amusing. To give tone to the affair the sharp report of fire arms smote the air causing a fluttering in the breasts of expectant brides. It was the time observed charivari which in this section has long been regarded as indispensable to such occasions. The offending deity was soon appeased by suitable oblations and good cheer again was king. To the travelling men with whom the house was filled the scene was one not ordinarily laid down in their program. But they were not forgotten. At an early hour the guests departed in delightful anticipation of the coming events. The groom is clerk in the bank of Logan, a position he has held for a number of years and is universally respected, while the bride is the daughter of one of our prosperous farmers, and for the past year has been a teacher in one of the departments of our public school. The contracting parties have the benisons of numerous friends in the journey of life.

From the Commercial Tribune, Denver.

**Not in the Trust.**  
 Some weeks ago we stated that most of the Trust package coffee had deteriorated. For fear that some of our readers may misunderstand our meaning, we will simply state that the trust package coffees, and those who are engaged in a war fare, are not those who have kept out of the fight and kept their grades of coffee up to the standard. As we stated, McLaughlin XXXX has always stood in the lead, and very superior in its drinking qualities, to any other package coffee, and this is why it has the leading sale throughout the west.

Since package coffees have been at such a low price, we have had a number of compliments in regard to McLaughlin's coffee by people who were attracted towards package coffee (never having used any), by the extremely low price, and one prominent grocer said: "I am using the XXXX coffee, and think it is fully equal to any coffee that is retailed at 25 or 26 cents a pound."

Now, when people express themselves in this manner it simply goes to show that good first class goods are appreciated, and McLaughlin & Co. have a good reason to feel proud over the result of their efforts.

**Uncle Sam's Condition Powder.**  
 IS THE BEST MEDICINE for the General Ailments of Horses, Cattle, Hogs and Sheep. It purifies the blood, prevents disease and cures Coughs, Colic, Galls, Hidesound, Worms, Distemper, etc. Nothing equals it for Hog Cholera. Uncle Sam's Almanac and Farmer Jones' Horse Deal mailed free.

**Uncle Sam's Nerve and Bone Liniment** for Sprains, Bruises, Rheumatism, Stiff Joints, etc. Goes right to the spot of pain. Nothing so good for Man and Beast. Try it.

## He Likes It.

**Fredonia, N.Y.**  
 The Veteran Editor of the Fredonia Censor, writes Dr. Fennor:

"I have been using your Blood and Liver Remedy and Nerve Tonic, and desire to say that I like it.

I find it an admirable remedy for the biliousness, languor and nervous depression incident to the changing seasons, sufficiently physicing and yet not debilitating but strengthening instead."

**High Praise of the Home.**

Dr. C. L. Clemons of Fort Dodge, Kan., made this office a pleasant call one day this week, and from him we learned much of the Kansas State Soldier's Home located at that place, and of which Dr. Clemons is at present an inmate. The Doctor takes great pride in speaking words of praise of "the Home". In his eulogy of it he says its management is in the hands of the most competent, painstaking, conservative men that can be found; that no public institution of the state has more efficient or able supervision than does the Kansas state home for the old soldiers. The adjutant, S. H. Thomas, is a man of experience and well fitted for the duties he has in charge. Nothing is left undone by him that will add to the comfort and happiness of the inmates and at the same time the interests of the state are at all times carefully guarded. Upon the whole Dr. Clemons says the institution is a grand success and one of which the state may well be proud.

A SYSTEM of public works that has much to commend it is that of "Co-operative Contract," in vogue in New Zealand. Under that system a public work is divided into small sections by the engineer in charge, and an estimate is made of its cost. Each section is then let out to a group of workmen, who do the work under a foreman of their own choosing, but who receives no more than his fellows. They obtain the full profit which would otherwise go to professional contractors, and they share the payment equally.

Each worker is interested in seeing that his companions do their full amount of work, and the sooner the job is performed the greater the return for a days work. If any tools are needed which the men do not own, the government supplies them at a moderate rental. The adoption of this system should provide a method whereby direct employment would be consistent with a full return for the money expended, giving to the community an advantage in the economical execution of public enterprises equal to that enjoyed by private employees.—Review of Reviews.

There is Nothing So Good.

There is nothing just as good as Dr. King's New discovery for Consumption Coughs and Colds, so demand it and do not permit the dealer to sell you some substitute. He will not claim there is anything better, but in order to make more profit he may claim something else to be just as good.
